

ROV Supervisor Course

COURSE OVERVIEW

CODE: ROV01S

ON SITE DURATION: 1 WEEK

HOME STUDY: NO.

This course is fully conducted at our training premises.

This Supervisors Competency Training Course is a full hands on Supervisors course NOT just a 3 day classroom slide show.

Please refer to ROV Pilot career path to decide if this course is sufficient for you or your company's needs. If you are looking for a Basic ROV Pilot Technician Course, please refer to our ROV Entry Level Courses: ROV04 or ROV05. By using our e-learning system to allow you to study at home and then complete with practical work and assessment on site, we are able to save you considerable time and money.

WHO SHOULD ATTEND THE COURSE

This course is for delegates already working in the ROV industry who are getting close to wanting to offer supervisory skills. It covers IMCA recommendations within 2 modules including training on R01 competences.

The Course content is in line with guidance documents **IMCA C011** and **IMCA C005 – R01**

LOCATION

At our Technical Training Centre in Subic, Philippines.

ROV SUPERVISOR COURSE MODULES

- ▶ **C011** - Basic Supervising Skills Module
– follows IMCA C011 recommended syllabus
- ▶ **R01** - IMCA R01 ROV Supervisor Competency Training Module
